

Data Analyst

CDI

Apply: jobs@kiro.bio

Location: Paris, up to 2 days remote / week

Starting date: As soon as possible

Requirements: Master's degree (or equivalent) and 3+ years of experience

KIRO'S MISSION

Founded in 2019, Kiro is the first AI-powered digital health platform for clinical biology in Europe. It develops new approaches to medical biology using medical-grade artificial intelligence and cloud technology as well as leveraging laboratory results to improve patient outcomes.

Most people find laboratory test results (such as blood or PCR testing) hard to understand and act on. We developed a new approach to medical biology that is clearer, tailored, and more relevant to patients. It was created in collaboration with leading laboratories, hospitals, and physicians, and it is already used by millions of people.

If well understood, medical biology can increase knowledge of potential medical condition outcomes and patients' health to better diagnose and anticipate diseases. We believe this fundamentally holds the key to true precision medicine. We have built Kiro to make this happen.

It is an exciting journey - Come and be a part of it!

YOUR ROLE & RESPONSIBILITIES

To support our growth, we are looking for talented and passionate team members strongly willing to build the future of health with us. As a Data Analyst part of the Data team, you will work closely with your peers as well as with members of the product, business, and engineering teams. In an environment where technology and digital haven't played all their cards yet, your work will directly contribute to shaping a platform that benefits patients and has the potential to change healthcare fundamentally. Your role and responsibilities will be:

- Extract insights from billions of lab test results to provide relevant medical information.
- Be a driving force in unearthing business and product opportunities from our data.
- Faced with a request, refine what needs to be analyzed and why, to identify the minimum viable analysis that would answer the question.
- Enable data-driven decisions about our product and business thanks to thought-through analyses, clear dashboards, and the definition of relevant metrics.
- Design, implement, and maintain customer-facing dashboards.
- Drive the effort to bring Kiro's data-drivenness to the next level, through advocacy, documentation, and otherwise relevant.

OUR TECH STACK

The languages we speak, and the tech we use in Data Analytics

- Viz: Looker Studio.
- Back: BigQuery (SQL), Python.

OUR NEXT TEAMMATE

Some of the main characteristics we're looking for:

- Master's degree (or equivalent) and at least 3 years of work experience as a data analyst
- Strong storytelling and data visualization skills combined with solid statistical foundations.
- Proficient in building complex and efficient SQL queries.
- Ability to take ownership and drive projects to completion, with a pragmatic approach to problem-solving that relies on strong reasoning and analytical thinking to get things done.
- Quick adaptation to new situations and problems; the willingness to take the initiative and constantly strive to improve oneself.
- Have a great team spirit; understand how to trust your teammates' ideas while also challenging them when required.
- Professional working proficiency in French and English.
- Nice-to-have: experience with using Python for data transformation and analysis, experience working in the healthcare / MedTech field, experience with informing A/B test decisions and/or data anonymization decisions.

WORKING ENVIRONMENT & ADVANTAGES

By joining Kiro, you will have the opportunity to:

- Work in a dynamic and ambitious start-up on a mission to transform healthcare
- Join a recognized, multi-award-winning start-up, in a critical role
- Gain experience on a unique product allying digital health, data management, and artificial intelligence for medicine.
- Be part of a diverse team that cares about each other
- Be at the heart of France's most dynamic startup ecosystem.
- The icing on the cake: Have an attractive package, Alan Health, Swile lunch card, and much more

Do you have what it takes?
