

Product designer

CDI

Apply: jobs@kiro.bio

Location: Paris, up to 2 days remote / week

Starting date: As soon as possible

Requirement: Bachelor's degree (or equivalent) and 5+ years of experience

KIRO'S MISSION

Founded in 2019, Kiro is the first AI-powered digital health platform for clinical biology in Europe. It develops new approaches to medical biology using medical-grade artificial intelligence and cloud technology and leverages laboratory results to bring better outcomes for patients.

Most people find laboratory test results (such as blood or PCR testing) difficult to understand and act on. We developed a new approach to medical biology that is more clear, tailored, and relevant to patients. It was created in collaboration with leading laboratories, hospitals, and physicians, and it is already used by millions of people.

If well used, medical biology can drive an increased understanding of disease outcomes and patients' health to better diagnose and anticipate diseases. We believe this fundamentally holds the key towards true precision medicine. We have built Kiro to make this happen.

It is an exciting journey - Come be a part of it!

YOUR ROLE & RESPONSIBILITIES

As a Product Designer (covering both UX and UI) in the company, you will work in close relationships with the product team and other members of the engineering team. You will be in charge of creating the best experience for patients and healthcare professionals.. In an environment where technology and digital haven't played all their cards yet, your work will directly contribute to shape a platform that benefits patients and has the potential to fundamentally change healthcare. Your role and responsibilities will be:

- Play a central role to shape our product especially across all phases of design cycle, from conception to delivery with attention to aesthetics details
- Actively contribute in user research : Interact with patients or animate user interviews to understand needs or pain points of usage in order to innovate and iterate on the design (new features, optimization, etc.)
- Be involved in design process and suggest improvement to maintain the design system and best practices in UX/UI

- Be creative in order to contribute and challenge the design system (proficient in design software)
- Work closely with product manager and business team to develop high-quality prototype and understand the challenges
- Work closely with the software engineering team to ensure the proper integration into the product
- Come up with new ideas to improve the product. We are looking for candidates with strong innovation skills who are ready to push their ideas to production and iterate quickly on those

OUR NEXT TEAMMATE

Some of the main characteristics we're looking for:

- Bachelor's degree (or equivalent) and at least 5 years of experience as a product designer (UX/UI) ideally in renowned startups or companies
- Strong aesthetic skills with the ability to meet deadlines and collaborate with a team
- Know and master Figma, Notion, and have notions of Miro, Mural, etc.
- Ability to take ownership and drive projects to completion, with a pragmatic approach to problem solving that relies on strong reasoning and analytical thinking to get things done!
- Quick adaptation to new situations and problems; the willingness to take the initiative and constantly strive to improve oneself.
- Have a great team spirit; understand how to trust your teammates' ideas while also challenging them when required.
- Professional Working Proficiency in French and English

WORKING ENVIRONMENT & ADVANTAGES

By joining Kiro, you will have the opportunity to:

- Work in a dynamic and ambitious start-up on a mission to transform healthcare 🙌
- Join a recognized, multi award-winning start-up, in a critical role 🌟
- Gain experience on a unique product allying digital health, data management and artificial intelligence for medicine.
- Be part of a diverse team that care about each other 🍷
- Be at the heart of France's most dynamic startup ecosystem.
- Icing on the cake: Have an attractive package, Alan Health, Swile lunch card and much more 🎉

Do you have what it takes?
